Summary

Computer Engineering undergraduate (CGPA: 8.5) with expertise in Data Structures & Algorithms, Object-Oriented Programming, and full-stack software engineering. Hands-on experience developing scalable microservices, RESTful APIs, and database-optimized backend systems using ASP.NET Core, Node.js, and React.js. Passionate about building high-availability applications and solving complex algorithmic challenges.

Technical Skills

Programming Languages: Java, C++, C#, Python, JavaScript (ES6+)

Core Computer Science: Data Structures & Algorithms (DSA), Object-Oriented Design (OOD), DBMS, OS, Computer Networks

Backend Development: Node.js, Express.js, ASP.NET Core, Entity Framework Core, RESTful APIs, Microservices

Databases & Storage: SQL Server, MySQL, MongoDB, Indexing & Query Optimization

Tools & Infrastructure: Docker, Git, GitHub, Postman, Linux/Unix, CI/CD Pipelines

Frontend & Web: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Axios, Responsive Web Design

Experience

Junior Developer Intern

Jun 2026 – Present

Forteia Pune

- Developed 10+ CRUD modules using C#, ASP.NET Core, and Entity Framework Core.
- Built and tested 15+ RESTful APIs for secure data exchange and application workflows.
- Optimized backend data processing by 25% using LINQ and async/await, improving system responsiveness for high-traffic applications.
- Automated CI/CD pipelines using GitHub and Azure, reducing deployment time by 15% and ensuring reliable SQL Server deployments.

Web Development Intern

May 2025 – Jun 2025

SaSarjan / TalentExcel Future Leaders

Remote

- Built responsive front-end interfaces using Tailwind CSS and JavaScript, increasing mobile user engagement by 20%.
- Designed and tested 10+ RESTful APIs with validation and structured error handling.
- Resolved 20+ front-end and backend issues, improving application stability and performance.
- Resolved 50+ critical bugs through agile collaboration and Git-based code reviews, maintaining code quality and meeting sprint deadlines.

Projects

Trust Exam – Secure Online Examination System

2026

Tech Stack: React.js, Tailwind CSS, Node.js, Express.js, MongoDB, JWT

- Engineered a secure backend system with role-based authentication for Admin and Student users.
- Built and integrated 15+ APIs for exam management, submissions, and result processing.
- Handled edge cases including duplicate submissions, invalid inputs, and session validation.
- Enhanced database performance using MongoDB indexing and query optimization.

Taskora – Skill Matching Platform

2025

Tech Stack: React.js, Tailwind CSS, Node.js, Express.js, MongoDB, JWT, REST APIs

- Created scalable REST APIs with authentication and role-based access control.
- Engineered backend matching logic based on user skills and preferences.
- Improved query execution speed by 30% using MongoDB indexing techniques.
- Controlled unauthorized access and duplicate user registration scenarios.
- Maintained consistent validation and structured data handling across multiple modules.

Education

St. John College of Engineering and Management

2023 – Present

B.Tech in Computer Engineering (CGPA: 8.5)

Palghar, Maharashtra

Om Sai College

2022 – 2023

Higher Secondary Certificate

Palghar, Maharashtra

Achievements

- Solved 400+ Data Structures and Algorithms problems on LeetCode and other coding platforms.
- Selected for college-level Smart India Hackathon screening.
- Active on GitHub with multiple backend projects and consistent contributions.
